Responsibility for Financial Statements

The accompanying financial statements for Titanium Corporation Inc. have been prepared by management in accordance with Canadian generally accepted accounting principles consistently applied. The most significant of these accounting principles have been set out in the August 31, 2005 audited financial statements. Only changes in accounting information have been disclosed in these financial statements. These statements are presented on the accrual basis of accounting. Accordingly, a precise determination of many assets and liabilities is dependent upon future events. Therefore, estimates and approximations have been made using careful judgment. Recognizing that the Company is responsible for both the integrity and objectivity of the financial statements, management is satisfied that these financial statements have been fairly presented.

(Unaudited)

1. Accounting Policies and Nature of Operations

Titanium Corporation Inc. ("Titanium" or the "Company") was formed by articles of amalgamation under the Business Corporations Act (Ontario) on July 24, 2001. The Company is engaged in the business of developing a separation process for the recovery of titanium and zircon from Canada's oil sands. The Company is considered to be in the development stage as it has yet to earn any revenues and it is devoting substantially all of its efforts toward the development of this process.

To fund its past development activities, the Company has raised equity capital to achieve specific milestones set out in its business plan. In August 2005, the Company raised funds to complete the design, engineering and construction of a Phase 1 expandable production facility to be located in Fort McMurray, Alberta and for working capital purposes.

Previously the Phase 1 program was planned as a non-commercial demonstration facility to produce an industrial sized titanium feedstock sample required by pigment manufacturers. In response to continued positive market economics for zircon, the Company is now planning to redesign the first phase of its facilities to be a commercial plant and to initially prioritize the commercial production of zircon.

Management is of the opinion that additional funding is available and may be sourced in time to allow the Company to build the commercial scale zircon plant. While it has been successful in the past, there can be no assurance that it will be able to raise sufficient funds in the future.

The unaudited financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and notes to the financial statements required by Canadian generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six month period ended February 28, 2006 may not necessarily be indicative of the results that may be expected for the year ending August 31, 2006.

The balance sheet at August 31, 2005 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by Canadian generally accepted accounting principles for annual financial statements. The interim financial statements have been prepared by management in accordance with the accounting policies described in the Company's annual financial statements for the year ended August 31, 2005. For further information, refer to the financial statements and notes thereto included in the Company's annual financial statements for the year ended August 31, 2005.

2. Oil Sands Project development costs

Capitalized costs incurred relating to the Oil Sands Project development at February 28, 2006 and August 31, 2005 are as follows:

	February 28, 2006	August 31, 2005
Acquisition and development costs	\$ 5,599,944	\$ 4,732,510
Building and equipment construction costs	<u>5,042,094</u>	<u>4,482,020</u>
	<u>\$10,642,038</u>	<u>\$ 9,214,530</u>

In May 2005, the Company extended until May 2006, the three-way exclusivity agreement with Syncrude ("Syncrude") and a major titanium dioxide pigment producer to develop the commercial feasibility of extracting and producing titanium bearing minerals and zircon as by-products of bitumen extraction from oil sands produced by Syncrude's centrifuge plant.

3. Capital Stock

The Company is authorized to issue an unlimited number of common shares.

Common shares	Number of Shares	Amount

Balance, February 28, 2006	\$ 1,374,052

6. Common Share Purchase Plan

The Company has a stock option plan (the "Plan") which is restricted to directors, officers, key employees and consultants of the Company. The number of common shares subject to options granted under the Plan (and under all other management options and employee stock purchase plans) is limited to 4,000,000 common shares in the aggregate, and with respect to any one optionee, to 5% of the number of issued and outstanding common shares of the Company at the date of the grant of the option. Options issued under the Plan may be exercised during a period determined by the board of directors which cannot exceed five years.

Effective February 26, 2003, all options granted subsequently under the Plan vest and become exercisable by the holder over a period of 18 months, with 1/6 of the options being granted vesting at the end of each 3 month period following the grant.

Effective February 23, 2005, the Company amended its stock option plan to increase the number of common shares reserved for issuance under the plan from 4,000,000 to 5,000,000 common shares.

The following table reflects the continuity of stock options for the six months ended February 28, 2006:

	Number of Stock Options	Weighted Average Exercise Price

6. Common Share Purchase Plan (continued)

During the six months ended February 28, 2006, 400,000 (February 28, 2005 - 700,000) stock options were granted by the Company. Accordingly, \$532,500 (February 28, 2005 - \$1,846,915) will be expensed in the statement of operations and deficit as these options vest.

The following stock options were granted in during the six months ended February 28, 2006:

<u>Expiry Date</u>	<u>Exercise Price (\$)</u>	<u>Number</u>
November 29, 2010	2.30	75,000
January 19, 2006	3.17	100,000
February 23, 2006	2.75	<u>225,000</u>
		<u>400,000</u>

The fair value of the options granted has been estimated at the date of grant using a Black-Scholes option pricing model. The current period's valuation was calculated with the following assumptions: weighted average risk free interest rate of 3.60% (February 28, 2005 - 4.0%); volatility factor of the expected market price of the Company's common stock of 57% (February 28, 2005 - 47%); and a weighted average expected life of the options of 5 years (February 28, 2005 - 5 years).

During the six months ended February 28, 2006, 457,499 (February 28, 2005 - 326,667) options granted in prior periods had vested. Accordingly, \$542,182 (February 28, 2005 - \$485,800) was recorded as contributed surplus. Of the \$542,182 (February 28, 2005 - \$485,800) recorded as contributed surplus, \$485,892 (February 28, 2005 - \$191,048) was recorded as stock-based compensation and \$56,290 (February 28, 2005 - \$294,752) was capitalized to Oil Sands Project development costs.

As at February 28, 2006, \$1,741,522 relating to unvested stock options remains to be expensed in the statement of loss and deficit. This amount will be expensed periodically as the options vest.

7. Income Taxes

The benefit of the loss for the period has not been recognized in these unaudited interim financial statements.

Estimated taxable income for the period is nil. Based upon the level of historical taxable income it cannot be reasonably estimated at this time if it is more likely than not the Company will realize the benefits from future income tax assets relating to temporary differences between tax values and accounting values. Accordingly, an equivalent estimated taxable temporary difference valuation allowance has been provided.

The estimated taxable temporary difference valuation allowance will be adjusted in the period that it is determined that it is more likely than not that some portion or all of the future tax assets will be realized.

8. Basic and diluted loss per common share

The basic loss per share is computed by dividing the loss for the period by the weighted average number of common shares outstanding during the period. Diluted loss per share is the same as basic loss per share. The effect of common share purchase warrants and stock options on the net loss for the periods presented is not reflected as to do so would be anti-dilutive.

The following table sets forth the computation of basic and diluted loss per share:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2006	2005	2006	2005
Basic and diluted loss per share	0.02	0.02	\$ 0.03	\$ 0.03

9. Related Party Transactions

The Company was charged \$71,750 (2005 - \$ 6,833) and \$143,500 (2005 - \$6,833) respectively for the three and six months ended February 28, 2006 by a corporation controlled by a director that provided his services of President and Chief Executive Officer. A bonus of \$137,500 (2005 - \$nil) was also paid to this company during the six months ended February 28, 2006.

The Company was charged \$50,000 (2005 - \$50,000) and \$100,000 (2005 - \$100,757) respectively for the three and six months ended February 28, 2006 by a corporation controlled by a director that provided his services of Executive Chairman. A bonus of \$50,000 (2005 - \$nil) was also paid to this company during the six months ended February 28, 2006. Payables and accruals at February 28, 2006 were \$53,500 (2005 - \$nil).

The Company was charged \$nil (2005 - \$16,522) and \$14,241 (2005 - \$25,961) for the three and six months ended February 28, 2006 by corporations partially owned by an officer of the Company that provided bookkeeping and corporate secretarial services. Payables and accruals at February 28, 2006 were \$2,600 (2005 - \$6,804). As of November 30, 2005, these corporations were no longer related to the Company.

These related party transactions were in the normal course of operations and were measured at the exchange amounts.
