### 1 Reporting entity and going concern

Titanium Corporation Inc. (the “Company” or “Titanium”) is a public company domiciled in, and governed by the laws of Canada. Titanium was formed upon the amalgamation of Titanium Corporation of Canada Limited and NAR Resources Ltd. under the Business Corporations Act (Ontario) on July 24, 2001. On March 19, 2009 the Company was continued under the Canada Business Corporations Act. The Company does not have any subsidiaries.

The Company’s principal business office is Suite 510, 840 6 Avenue, SW, Calgary, Alberta, T2P 3E5 and the Company’s registered office is located at Suite 2400, 525 8th Ave SW Calgary, AB T2P 1G1. The Company’s common shares are listed on the Toronto Stock Venture Exchange under the ticker symbol “TIC”.

Titanium’s mission is “Creating Value from Waste™” (“CVW™”). The Company has developed innovative CVW™ technologies that recover valuable heavy minerals, bitumen, solvent and water from oil sands waste tailings. The recovery of bitumen, associated solvents and water will result in important and timely environmental improvements for the oil sands industry. The Company has completed demonstration piloting which culminated several years of progressive research and development (“R&D”) of its proprietary technology.

The Company is considered to be a development stage enterprise as it has yet to earn any revenues from its planned operations. The Company is devoting substantially all of its efforts toward commercializing its proprietary technology. The recoverability of amounts expended on R&D is dependent on the ability of the Company to complete pre-commercialization activities, commercialization at oil sands sites, and achieve future profitable operations. The Company is dependent on raising funds through the issuance of shares, government grants and/or attracting partners in order to undertake further development and commercialization of its technology. These circumstances may cast a significant doubt on the appropriateness of the use of accounting principles applicable to a going concern. While the Company has been successful in obtaining the necessary financing to develop the business to this point, there are no assurances that the Company will be successful in the future in these endeavors.

The financial statements are prepared using generally accepted accounting principles that are applicable to a going concern. An inability to raise additional financing or to achieve commercial operations, will impact the future assessment of the Company as a going concern. If the going concern assumption was not appropriate for these financial statements, the reported income and expenses and the statement of financial position would require the necessary adjustments to the carrying values of assets and liabilities, which could be material.

# Titanium Corporation Inc.

## Notes to Condensed Interim Financial Statements

(Unaudited)

May 31, 2015 and 2014

---

### 2 Basis of presentation

These condensed interim financial statements of the Company have been approved by the Board of Directors on July 17, 2015 and are presented in Canadian dollars, which is the Company's functional currency.

These condensed interim financial statements have been prepared in accordance with IFRS as issued by the IASB applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended August 31, 2014, which have been prepared in accordance with IFRS as issued by the IASB.

### 3 Significant accounting policies

Except as outlined below, these condensed interim financial statements have been prepared following the same accounting policies and methods of computation as the most recent annual financial statements as at and for the year ended August 31, 2014. Significant accounting policies are described in Note 3 of the August 31, 2014 annual financial statements.

#### Critical accounting estimates and judgements

The preparation of financial statements in accordance with IFRS requires management to make critical accounting estimates and judgements that affect the amounts reported in the financial statements and accompanying notes. These estimates and judgements are continually evaluated and are based on historical experiences and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the actual results. Management considers the following areas to be those where critical accounting policies affect the significant estimates and judgements used in the preparation of the Company's financial statements.

#### a) Fair value of stock-based compensation

Determining the fair value of stock based compensation requires judgement related to the choice of a pricing model, the estimation of stock price volatility, the expected term of the underlying instruments and the estimation of the risk free interest rate.

#### New standards and amendments issued but not yet adopted

Certain new standards, amendments to standards and interpretations are not yet effective for the current reporting period, and therefore have not been applied in preparing the financial statements.

The Company has not yet begun the process of assessing the impact that the new standard will have on its financial statements:

IFRS 9 – “Financial Instruments”, which is the result of the first phase of the IASB's project to replace IAS 39 – “Financial Instruments: Recognition and Measurement”. The new standard replaces the current multiple classification and measurement models for financial assets and liabilities with a single model that has only two classification categories: amortized cost and fair value. The amendment is effective January 1, 2018.

# Titanium Corporation Inc.

## Notes to Condensed Interim Financial Statements

(Unaudited)

May 31, 2015 and 2014

---

IFRS 15 – “Revenue from Contracts with Customers”. This amendment replaces the existing revenue standards and interpretations with a single standard and provides additional guidance on revenue recognition for contracts with customers. The amendment is effective January 1, 2017, with early adoption permitted.

The Company is currently evaluating the impact of adopting these standards on its financial statements.

### 4 Government assistance

#### **National Research Council of Canada - Industrial Research Assistance Program (“IRAP”)**

In 2012, the Company entered into a funding Contribution Agreement with National Research Council of Canada as represented by IRAP to assist with research costs related to a paraffinic tailings program conducted at the Canmet Energy research facility. Since the inception of the project, the Company received \$358,113 for qualifying project costs. In the prior year, \$34,074 was recognized as grant recovery and treated as a reduction of R&D expense. The Company concluded the pilot project in the prior fiscal year.

#### **Scientific Research and Experimental Development (SR&ED) Tax Incentive Program**

The Alberta SR&ED tax credit program provides a refundable tax credit to qualified corporations that incur eligible R&D expenditures in the province of Alberta. The Company received funds related to its 2013 claim in the amount of \$177,843 on October 28, 2014.

### 5 Deferred Compensation

In order to preserve cash, the Company made arrangements with its directors and officers to receive a portion of their cash compensation in the form of either Restricted Share Units (“RSUs”) or Deferred Share Unites (“DSUs”). The deferred compensation liability was recognized as the value of the approved compensation. These amounts will be settled through the issuance of DSUs or RSUs in the future. Upon settlement, the outstanding liability is reclassified to contributed surplus. The vesting provisions, expiry date and the number of RSUs and DSUs to be issued remain subject to further determination of the Compensation Committee and shall be formally granted upon such determination.

### Stock-based compensation

The Company has a Stock Plan for its directors, officers, employees and consultants to encourage ownership of stock and align themselves with the longer term interest of Company shareholders. The stock plan is designed to advance the Company's interests by providing additional incentives for plan participants and to retain and attract valued directors, officers, employees and consultants. The Company grants stock-based awards to officers, employees and non-executive directors at the discretion of the board of directors. The associated stock-based compensation expenses are recognized as components of general and administrative and research and development expenses. On December 16, 2013 the Company adopted a "rolling" stock-based plan to include stock options, deferred share units ("DSUs") and restricted share units ("RSUs"). The number of common share options available for grant at any time is limited to 10% (rolling) of the issued and outstanding common shares of the Company in the aggregate. The revised rolling 10% stock plan was approved by shareholders on February 12, 2015 and the stock plan is subject to annual approval by the Company's shareholders.

The stock plan is comprised of the following components:

a) Stock options

Once a stock option is granted, the compensation costs for options granted is based on the estimated fair values of the options at the time of grant. The cost is recognized as a component of general and administrative and research and development expenses over the vesting periods of the options with a corresponding increase to contributed surplus within shareholders' equity. Upon exercise of the stock option, both the consideration received and the fair value of the option amortized are recognized as share capital.

b) DSUs

As part of the Company's long-term incentives for non-executive directors a deferred stock unit plan was established representing a component of director compensation. The Award plan was initially established on April 29, 2013 as a cash settled plan. On December 16, 2013 the Company revised the plan for the purpose of reducing cash expenses, whereby DSU awards would be settled with common shares. The revised plan was approved by the Company's shareholders on January 23, 2014. DSU awards vest immediately upon grant and are settled with the issuance of common shares when a director's service ceases. The compensation expense for DSUs awarded to non-executive directors is based on the fair values at the time the award is granted. The expense is recognized as a component of general and administration expense with a corresponding increase to contributed surplus within shareholders' equity. Upon redemption, the fair value of the award is reclassified from contributed surplus to share capital.

c) RSUs

As part of the Company's long-term incentives for officers and other key employees of the Company, the RSU plan provides participants with the opportunity to acquire RSUs in to order participate in the long term success of the Company. The vesting schedule of RSU awards are specified by the Board of Directors on the grant date. Once the award is vested, the RSU is settled with the issuance of the Company's common shares. The compensation expense for RSUs awarded is based on the fair values of the award at the time of grant and

# Titanium Corporation Inc.

## Notes to Condensed Interim Financial Statements

(Unaudited)

May 31, 2015 and 2014

amortized over the specified vesting period. The cost is recognized as a component of general and administration and/or research and development expense with a corresponding increase to contributed surplus, within shareholders' equity. Upon redemption, the fair value of the award is reclassified from contributed surplus to share capital.

### Summary of equity- based awards

As of May 31, 2015, the Company was entitled to grant 6,442,504 stock based awards within the 10% rolling plan of which 4,046,412 have been granted and are outstanding. Of the total granted, 3,658,400 were issued as stock options and 388,012 were issued as DSUs. The components of stock based compensation are summarized below:

#### Summary of stock options

A summary of the Company's stock option activity for the nine month period ended May 31, 2015 and fiscal year ended August 31, 2014 as follows:

	May 31, 2015		August 31, 2014	
	Number of common stock options #	Weighted average exercise price \$	Number of common stock options #	Weighted average exercise price \$
Outstanding – September 1 Options	3,815,400	1.25	3,940,400	1.23
Options forfeited/cancelled	-	-	(75,000)	1.11
Options expired	(157,000)	0.45	(50,000)	0.21
Options outstanding	3,658,400	1.28	3,815,400	1.25
Options exercisable	3,658,400	1.28	3,648,734	1.26

The following table summarizes the options outstanding as at May 31, 2015:

Range of exercise price	Number of common stock options #	Weighted average remaining contractual life	Weighted average exercise price \$	Number of options exercisable #	Weighted average exercise price \$
0.00 – 0.99	700,000	0.08	0.72	700,000	0.72
1.00 – 1.99	2,133,400	1.84	1.19	2,133,400	1.19
2.00 – 2.99	825,000	0.91	2.00	825,000	2.00
	3,658,400	1.29	1.28	3,658,400	1.28

# Titanium Corporation Inc.

## Notes to Condensed Interim Financial Statements

(Unaudited)

May 31, 2015 and 2014

---

Stock-based compensation expense has been presented in the statement of loss and comprehensive loss as a non-cash component of research and development and general and administrative expense (note 9). The fair value of each stock option is accounted for in the statement of loss and comprehensive loss, over the vesting period of the options, and the related credit is recorded in contributed surplus.

### Summary of DSUs

A summary of the DSU activity for the nine month period ended May 31, 2015 and fiscal year ended August 31, 2014 as follows:

	May 31, 2015		August 31, 2014	
	Number of DSUs #	Share price at time of grant \$	Number of DSUs #	Share Price at time of grant \$
Outstanding –				
September 1	370,447	0.90	333,330	0.90
Granted November 30	7,006	1.16	14,664	0.51
Granted February 28	10,559	0.94	12,096	0.62
Granted May 31	-	-	5,787	1.79
Granted August 31	-	-	4,570	2.03
DSUs outstanding	388,012	0.91	370,447	0.90

### Summary of RSUs

On December 16, 2013 RSUs were awarded to executive officers in lieu of \$152,287 cash compensation. The vesting of the awards were aligned with shareholder approval of the RSU plan at the Company's annual general meeting on January 23, 2014. Following the approval by shareholders, the RSUs were released and 245,624 common shares were issued by the Company, leaving no outstanding RSU's at August 31, 2014. There were no RSUs awarded during the nine month period ended May 31, 2015.

### 7 Basic and diluted loss per share

#### Weighted average number of common shares outstanding

As the Company incurred a loss for the three and nine month period ended May 31, 2015 and May 31, 2014, the impact of potentially issuable common shares upon the exercise of options would be anti-dilutive, basic and diluted loss per share as presented in the statement of loss and comprehensive loss are the same.

The following table sets forth the reconciliation of basic and diluted loss per share:

	Three month period ended May 31,		Nine month period ended May 31,	
	2015 \$	2014 \$	2015 \$	2014 \$
Net loss and comprehensive loss	513,173	662,960	1,801,487	2,431,335
Weighted average number of common shares for basic and diluted loss per share	64,425,040	64,425,040	64,425,040	64,294,580
Basic and diluted loss per share	<u>\$ 0.01</u>	<u>\$ 0.01</u>	<u>\$ 0.03</u>	<u>\$ 0.04</u>

### 8 Segmented information

#### Operating segments

The Company has one reporting segment engaged in researching and developing a recovery process for bitumen, solvents, valuable heavy minerals and water from oil sands froth treatment tailings. As the operations comprise a single reporting segment, amounts disclosed in the financial statements represent those of the single reporting unit. In addition, all of the Company's equipment is located in Canada.

### 10 Capital disclosures

The objectives for managing capital are to safeguard the Company's ability to continue as a going concern, so that it can provide adequate returns for shareholders and benefits for other stakeholders.

The Company considers its shareholders' equity as its capital, which at May 31, 2015 totalled \$583,039 (August 31, 2014 – \$2,357,260). The Company does not have any bank debt or externally imposed capital requirements. The capital management objectives are to manage its cash and cash equivalents prudently; to minimize the expenditures on general and administrative costs so that more funds are available for commercialization of the developed technology and research and development; and to access available government funding for research and development where possible.

Management reviews its capital management approach on an ongoing basis and believes that its current approach, given the relative size and stage of the Company, is appropriate. There were no changes in the Company's approach to capital management during the period ended May 31, 2015.
